

## **BrandPivot Website Developer Position**

We're looking for a reliable and self-sufficient WordPress Developer to join our team. You will be responsible for both the front-end and back-end development, building websites with WordPress page builders and themes, and for updating/maintaining existing websites and plugins. Familiarization with page builders, SEO plugins, and server maintenance and commands are a plus. This position requires a combination of programming skills, (namely PHP, HTML5, CSS3, and JavaScript) aesthetics, (understanding element arrangements on the screen, the color and font choices, etc.) and new feature research and development.

### **Specific Responsibilities:**

- Perform routine administration – add pages, menu items, and maintain content on WordPress Websites
- Create custom PHP based functionality for additional user personalization and notifications, as needed by the clients
- Provide installation and operational support for WordPress platform on Linux servers
- Perform device and multi-browser testing across multiple platforms

### **You Will Use the Following Skillsets:**

- Scripting/Programming Language | PHP, HTML, CSS, Java Script, jQuery, Bootstrap, XML
- Databases | MySQL, SQL Server

### **Position Requirements:**

- 5+ years of experience with PHP, WordPress
- Proficient in JavaScript, HTML, CSS, MySQL
- Experience developing websites
- Experience with responsive and adaptive design is required
- Ability to excel in a fast-paced environment where you define your schedule to meet deadlines
- Great communication and written skills
- Reliability is a MUST, we pride ourselves on meeting deadlines

## **The Ideal Candidate:**

- Is highly self-directed and organized and has the desire to work from home
- Has strong knowledge of WordPress (Plugin / theme development / API / Configuration)
- Can easily incorporate all necessary HTML and CSS into WordPress themes, and templates
- Has familiarity with PHP
- Knowledge of working with and administering Linux/Unix hosting environments is a definite plus but not required
- Knowledge of e-commerce platforms and setup, such as WooCommerce, is a plus but not required
- Comfort working with debugging tools like Firebug, Chrome inspector, etc.
- Ability to understand CSS changes and ramifications for consistent style across platforms and browsers
- Ability to convert comprehensive layout and wireframes into working HTML pages
- A strong desire to learn new technologies and keep up with industry trends

This is an as-needed, flexible, position to start, with the opportunity to grow to a full-time position. Project rate commensurate with experience.

Candidates should submit resume along with website samples to [darcy@brandpivotinc.com](mailto:darcy@brandpivotinc.com) No phone calls, please.
